

## Enhanced Network Integrated GPU Multithreaded Analysis

### Description:

#### Performance Optimised

In the fast-paced world of digital forensics, security is becoming more advanced with the expected turnaround time of an investigation remaining stagnant.

#### Octominer Chassis and cooling

The E.N.I.G.M.A. is a no-nonsense rack mountable cost-effective performance-based GPU unite build with the intention to increase processing speeds of investigations.

#### Data Protections with quad power supplies

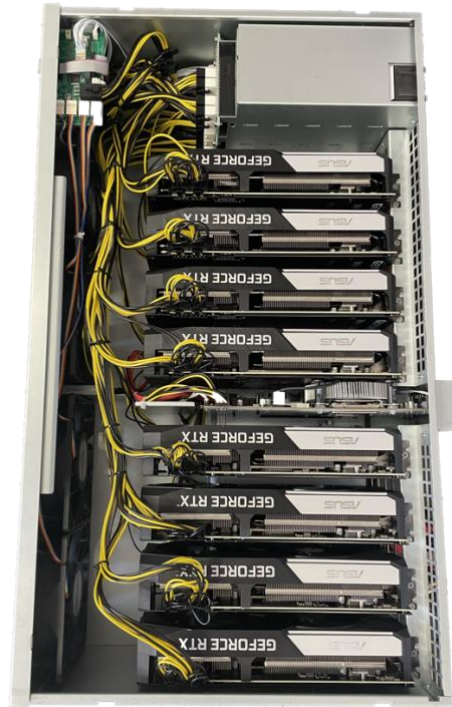

This 2th generation E.N.I.G.M.A. uses either 4 or 8 GPU configurations, with a GPU slot length of 325mm and a spacing of 65mm GPU to GPU.

#### Customised

## Core System

- Intel G18XX CPU, Dual Core
- 8x NVIDIA RTX GPU's
- 3000W total power supply (4x 750W Platinum Hot Swap Server Power Supplies)
- 8GB DDR3 RAM up to 32GB
- 60GB SSD
- Triple slot width 325mm length GPU's with 65mm GPU To GPU Spacing
- Octominer Chassis with 140x38mm cooling fans
- Octominer hardware watchdog & smart fan controller.
- Bosch Environmental Sensor
- Dimensions 70x40x17.8CM
